Gentlemen,

We have been picking up at Evily Atlantic warehouse for a number of years. I would like to take this opportunity to express our satisfaction with this facility. They are very efficient and easy to work with. Our drivers are in, loaded, and released in record time. Orders are always ready and accurate.

Someone is always available to make appointments and is familiar with each carrier. Another important factor is that if there is a problem, this warehouse will call you ahead of time. It is a pleasure to do business with this facility as they run a seamless operation.

Again, thank you for making our backhauls a pleasant experience for our drivers as well as myself.

Yours truly,

Cynthia Wilcox
Logistics Coordinator
